# AI-guided Diagnostics for Chronic Wounds

Kerstin von Diemar, Co-Founder

The problem:

# Chronic wounds are the silent epidemic

**1 in 4** families affected\*

**> 20,000,000**  
patients p.a.\*\*

**> 150,000,000,000 EUR**  
Global Healthcare Costs 2022\*\*\*

The problem:

# Chronic wound misdiagnosis causes unnecessary amputations

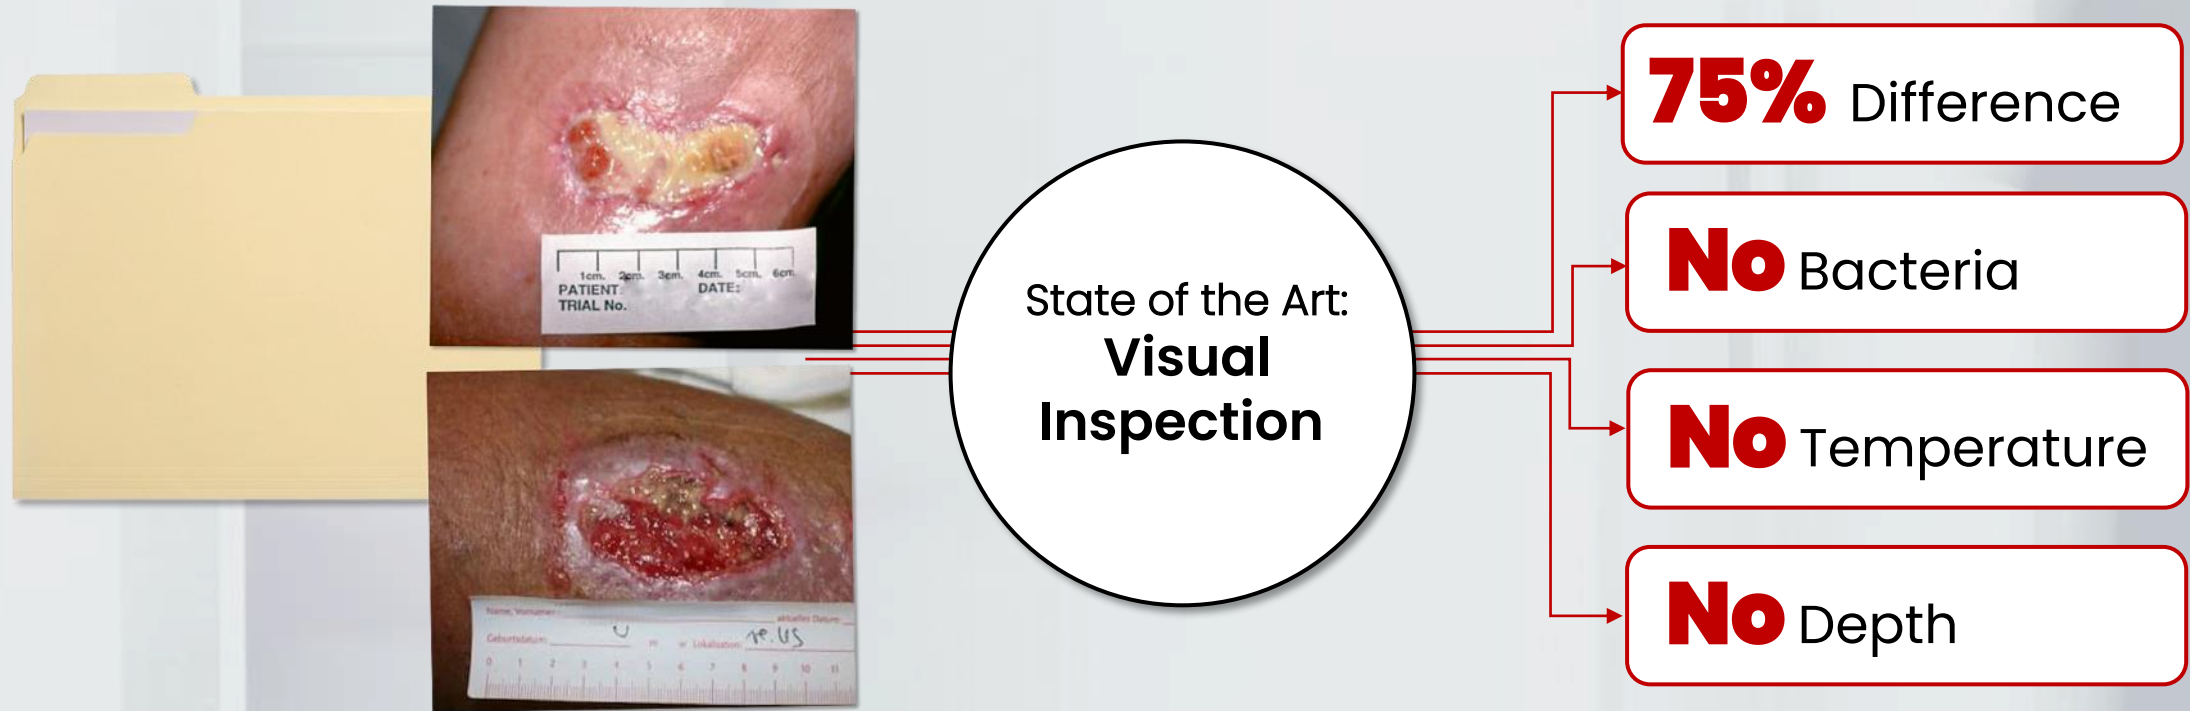

✘ > **50%** wrong treatment\*

✘ > **80%** infections undetected\*\*

✘ > **1,000,000**  
amputations p.a. \*\*\*

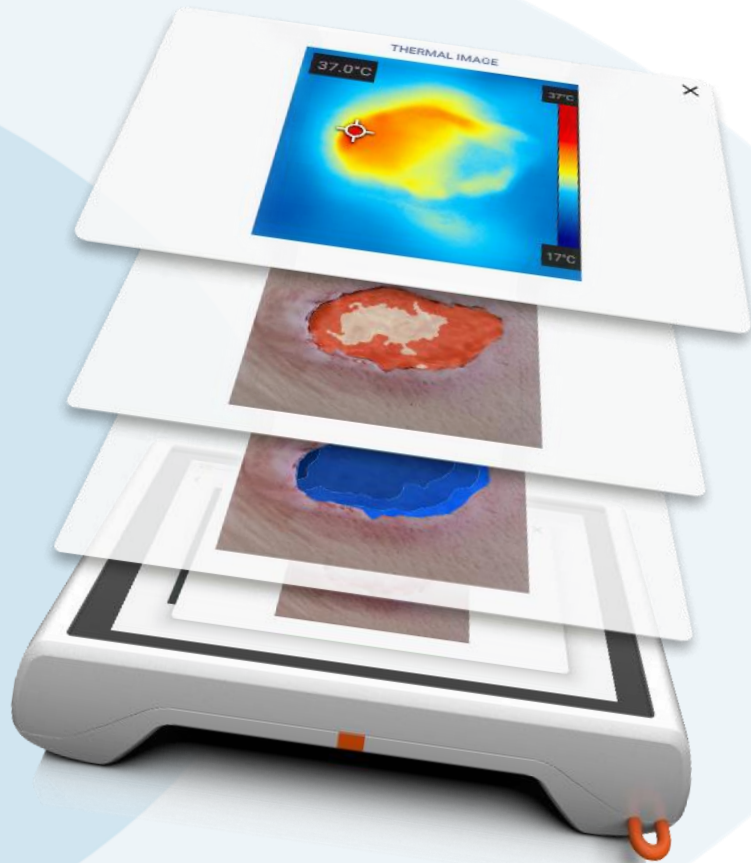

The problem:

# Current diagnostic methods are insufficient

The solution:

# cureVision is the gamechanger

## AI & Algorithms

Trained on **>400k** datapoints

Fast on-device-embedded analysis **in <20 seconds**

## Sensors

Easy to use in **any** environment

The solution:

**cureVision's medical device is used every day**

Wound expert Ralf Geisel assessing a chronic foot wound in a wound center

- ✓ **MDR**  
certified medical device in EU\*
- ✓ **6** patents in **3** patent families\*\*
- ✓ Used **daily** by **40+** customers

# What customers say about cureVision

For my nurses,  
it takes away  
any fear of  
making  
mistakes

Manager Nursing Home  
Landau an der Isar

With cureVision,  
I need no more  
than 2 minutes  
– 10 times faster  
than before.
